WORK EXPERIENCE

Accenture   July 2019 – Present
Full Stack Engineering Lead   *Atlanta, GA*
- Accenture is a leading global technology services firm servicing 80 percent of Fortune 500 companies.
- As Full Stack Engineer Lead, I headed our delivery pods for the North America innovation group collaborating with key clients, stakeholders, developers, and designers.
    - o   Coordinating product delivery for Cloud Innovation practice leveraging AWS, Azure, and GCP for clients in a variety of industries including Consumer Goods & Services, Hospitality, Media, Telecommunications, Finance, Non-Profit, and Education.
    - o   Leading efforts in hiring, onboarding and recruitment for the firm both remote and at college campuses
    - o   Mentored and guided other developers on best development practices and guidance.
- **Technologies used**: Javascript, React, GoLang, GraphQL, Typescript, RDS, SQL, API Gateway, GCP, AWS, Docker

Codecademy   August 2016 – July 2019
Lead Advisor   *New York, NY*
- Codecademy is an online interactive platform that offers free coding classes in 12 different programming languages including Python, Java, Go, JavaScript (jQuery, AngularJS, React.js), Ruby (Ruby on Rails-Ruby framework), SQL, C++, C#, Swift, and Sass, as well as markup languages HTML and CSS.
- As a lead advisor, I was responsible for staying up to date with all content releases and content development. In addition to supporting over 10,000 learners in one to one mentoring sessions, code review, and debugging.

RHI Creative Group   Jan 2018 – July 2019
Technology Engineering Lead   *Atlanta, GA*
- Robert Half International is an IT Staffing Firm working nationally with many medium to large enterprises.
- As a technology consultant I would work with clients both onsite and remote to execute delivery of software development services across media agencies in the Atlanta area.
- **Technologies used**: hybrid web applications (React Native, Ionic, iOS, Android), Ruby, Ruby on Rails, MongoDB, Python, Go, Java

Apple, Inc.   July 2012 – May 2016
Engineering, Safety, and Accessibility Liaison   *Austin, TX*
- Apple, Inc is a technology company that specializes in consumer electronics, software, and online services
- As a lead supervisor for AppleCare support I reported remote to AppleCare engineering and I was responsible for diagnosis, reporting, and documentation of software bugs and defects, safety issues, and Accessibility support for iPhone, iPad, Mac, OS X and iOS users which involved using bash and command shell tools.

EDUCATION & CERTIFICATIONS

Amazon Web Services   August, 2020
